

CE Water's application-specific chemical treatment programs are engineered to fit your equipment, operating conditions and water quality. **CE Water** treatment programs integrate the proper chemistries, automated dispensing & control equipment, filtration, and service-support, to maximize the performance of your equipment.

In collaboration with our customers, properly managed **CE Water** treatment programs can; 1) reduce utility costs 2) provide protection against bio-films and pathogens, 3) prolong equipment life, and 4) reduce downtime, and 5) reduce operating costs. The following treatment chemistries are available from **CE Water**.

Chemical Products

Cooling Systems (Open & Closed)	Boiler Systems	Process Water	Wastewater Products	Cleaners & Sanitizers
C.I.P Treatments Chlorine Alternatives Chlorine Dioxide Cleaning & Descaling Corrosion Inhibitors Defoamers/Antifoam Deposit Inhibitors Dispersants Glycol & Hydronic Fluids High-Purity Water Microbiocides (EPA Reg.) Non-Acid Treatments Non-Oxidizing Biocides Oxidizing Biocides Passivation Products Scale Inhibitors Washout/Flushout Microbiological Control Non-Acid Treatments Non-Oxidizing Biocides Oxidizing Biocides Passivation Products Scale Inhibitors Washout/Flushout Treat White Rust Prevention	Alkalinity Boosters AntiFoam/Defoamers C.I.P Treatments Chelants Cleaners/Descalers Condensate Inhibitors Corrosion Inhibitors Defoamers Dispersants Fly Ash Conditioners Fuel Conditioners Hot Water Heating Treat Internal Treatment Ion Exchange Resins Membrane cleaners Oxygen Scavengers Phosphates Return Line Treatment Scale Inhibitors Sludge Conditioning Steam-Line Treatments Washout/Flushout Treatments	Air Washers Treatment Alkalinity Adjustment C.I.P Treatments Chlorine Alternatives Chlorine Dioxide Cleaners & Descalers Coagulants Corrosion Inhibitors Defoamers/Antifoam Detackifiers Dispersants Flocculants Glycol & Hydronic Fluids High-Purity Water Microbiocides (EPA Reg.)
